# Tap Water

## Motivation

- The delivery of water to members of a particular civilization has a long ancient history

## Motivation

- The delivery of water to members of a particular civilization has a long ancient history
- More recently in the late 19th and early 20th centuries the delivery of treated water to cities became commonplace

## Motivation

- The delivery of water to members of a particular civilization has a long ancient history
- More recently in the late 19th and early 20th centuries the delivery of treated water to cities became commonplace
- Today 42 billion gallons of water are delivered daily in the United States

## Motivation

- The delivery of water to members of a particular civilization has a long ancient history
- More recently in the late 19th and early 20th centuries the delivery of treated water to cities became commonplace
- Today 42 billion gallons of water are delivered daily in the United States
- 87% of the US relies on public water supply

# Roadmap

Why is tap water the best drink?

How do we reconcile its imperfections?

# Roadmap

Why is tap water the best drink?

How do we reconcile its imperfections?

## Why is tap water the best drink?

- We literally need water to survive

## Why is tap water the best drink?

- We literally need water to survive
  - Humans can only live for up to 4 days without water

## Why is tap water the best drink?

- We literally need water to survive
- Alternate delivery methods in urban environments are incredibly costly (broadly defined)

## Why is tap water the best drink?

- We literally need water to survive
- Alternate delivery methods in urban environments are incredibly costly (broadly defined)
  - 80% of plastic water bottles end up in landfills and take up to 1000 years to decompose
